**OxySure to the Rescue in Manatee County, Florida
Number of Saves Tops 200**

Frisco, Texas, April 9, 2012 – OxySure® Systems, Inc. (OTCBB:OXYS) (“OxySure”), the pioneering manufacturer of life-saving easy-to-use emergency oxygen solutions with its “oxygen from powder” technology today announced that the Company’s Model 615 portable emergency oxygen unit was used to assist in the save of a manufacturing employee in Manatee County, Florida. This brings the number of saves with the OxySure Model 615 to well in excess of 200 in less than three years after commercial sales of the product began.

According to Tim Hillman, Health & Safety Coordinator for the manufacturing facility where the emergency took place, an employee called him at 9:00am eastern time on March 6, 2012 from the shop area, indicating that “one of his team members was not feeling well and that I should go take a look at him.” He added: “I went out to the shop, got the employee and brought him back to my medical office. I evaluated his condition as we called 911, and had the AED standing by. When the employee informed me that he was having difficulty with his breathing I used the OxySure unit to help him breathe. When Manatee County EMS & Southern Manatee Fire Rescue showed up they took the employee to Manatee Memorial Hospital. I followed up with his family and was informed that he had a blocked artery and that it had caused him to have a tear in his aorta. With surgery they were able to help him and now he is recovering well at home with his family.”

In presenting Mr. Hillman with the OxySure Hero Award, Julian Ross, CEO of OxySure stated: “Thanks to Tim and his quick-thinking, a good outcome was achieved by bridging the gap between a medical distress situation and the time professional help arrived, and the employee was able to receive advanced medical care. “Bridging the gap” is in line with our mission, and we applaud Tim, and many others like him who do not hesitate to help when it is needed.”

About OxySure Systems, Inc.

OxySure Systems, Inc. is a Frisco, Texas-based medical technology company that focuses on the design, manufacture and distribution of specialty respiratory and medical solutions. The company pioneered a safe and easy to use solution to produce medically pure (USP) oxygen from inert powders. The company owns numerous issued patents and patents pending on this technology which makes the provision of emergency oxygen safer, more accessible and easier to use than traditional oxygen provision systems. OxySure’s products improve access to emergency oxygen that affects the survival, recovery and safety of individuals in several areas of need: (1) Public and private places and settings where medical emergencies can occur; (2) Individuals at risk for cardiac, respiratory or general medical distress needing immediate help prior to emergency medical care arrival; and (3) Those requiring immediate protection and escape from exposure situations or oxygen-deficient situations in industrial, mining, military, or other public settings. www.OxySure.com

Forward-Looking Statements

This release contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Statements contained in this release that are not historical facts, including, without

limitation, statements that relate to the Company's expectations with regard to the future impact on the Company's results from new products in development, may be deemed to be forward-looking statements. Words such as "expects", "intends", "plans", "may", "could", "should", "anticipates", "likely", "believes" and words of similar import also identify forward-looking statements. These statements are subject to risks and uncertainties. Forward-looking statements are based on current facts and analyses and other information that are based on forecasts of future results, estimates of amounts not yet determined and assumptions of management. Readers are urged not to place undue reliance on the forward-looking statements, which speak only as of the date of this release. Except as may be required under applicable law, we assume no obligation to update any forward-looking statements in order to reflect any event or circumstance that may arise after the date of this release.
