**OxySure Secures DTC Eligibility**

**Frisco, Texas**, September 19, 2012 – OxySure® Systems, Inc. (OTCBB:OXYS) (“OxySure” or the “Company”), the pioneering manufacturer of life-saving easy-to-use emergency oxygen solutions with its “oxygen from powder” technology today announced that the company has secured DTC Eligibility by the Depository Trust Company for its shares on the OTC effective September 18, 2012.

The Depository Trust Company (DTC) is a subsidiary of the Depository Trust & Clearing Corporation DTCC, and manages the electronic clearing and settlement of publicly traded company stocks and other securities. Securities that are eligible to be electronically cleared and settled through the DTC are considered "DTC eligible". This electronic method of clearing securities speeds up the receipt of stock and cash, and thus accelerates the settlement process for investors.

“We are pleased to have obtained DTC eligibility,” Julian Ross, Chairman and CEO, OxySure Systems, Inc., states. “Our shares can now be traded electronically giving greater access to liquidity and an expansion of the types of investors who can now consider our shares for investment. We would like to thank the broker-dealer, World Trade Financial Corporation ([www.worldtradefinancial.com](http://www.worldtradefinancial.com)) and our transfer agent Action Stock Transfer, for their support through this process. We continue to make progress in our efforts to grow the Company, and we will continue to update our shareholders on our progress.”

Shareholders who require assistance transferring shares may call management for assistance or send an email to [investors@oxysure.com](mailto:investors@oxysure.com).

**About OxySure Systems, Inc.**

OxySure Systems, Inc. is a Frisco, Texas-based medical technology company that focuses on the design, manufacture and distribution of specialty respiratory and medical solutions. The company pioneered a safe and easy to use solution to produce medically pure (USP) oxygen from inert powders. The company owns numerous issued patents and patents pending on this technology which makes the provision of emergency oxygen safer, more accessible and easier to use than traditional oxygen provision systems. OxySure’s products improve access to emergency oxygen that affects the survival, recovery and safety of individuals in several areas of need: (1) Public and private places and settings where medical emergencies can occur; (2) Individuals at risk for cardiac, respiratory or general medical distress needing immediate help prior to emergency medical care arrival; and (3) Those requiring immediate protection and escape from exposure situations or oxygen-deficient situations in industrial, mining, military, or other “Immediately Dangerous to Life or Health” (IDLH) environments.
