

## OxySure (OXYS) Receives Economic Incentive from Frisco Economic Development Corporation

**Frisco, Texas, USA, July 9, 2014** – OxySure Systems, Inc. (OXYS: OTCQB) (“OxySure,” or the “Company”), a global leader and medical device innovator of life-saving, easy-to-use emergency oxygen solutions with its “oxygen from powder” technology is pleased to announce that the Company has received an economic incentive from the Frisco Economic Development Corporation (“FEDC”).

The FEDC and the Company’s landlord, Sinacola Commercial, have provided the Company an incentive package totaling \$567,000 for investment in infrastructure and improvements to the Company’s purpose built, corporate headquarters and state of the art manufacturing facility in Frisco. The recent incentive payment is the third of five based on OxySure’s attainment of specific performance requirements, including the number of jobs created and continuous occupancy of commercial space in Frisco.

Julian Ross, CEO of OxySure stated, “We are pleased for the continued support of the FEDC and we hope to increase our presence and footprint in Frisco as we grow and expand.”

### **About OxySure Systems, Inc.**

OxySure Systems, Inc. (OTCQB : OXYS) is a medical technology company that focuses on the design, manufacture and distribution of specialty respiratory and medical solutions. The company pioneered a safe and easy to use solution to produce medically pure (USP) oxygen from inert powders. The company owns numerous issued patents and patents pending on this technology which makes the provision of emergency oxygen safer, more accessible and easier to use than traditional oxygen provision systems. OxySure’s products improve access to emergency oxygen that affects the survival, recovery and safety of individuals in several areas of need: (1) Public and private places and settings where medical emergencies can occur; (2) Individuals at risk for cardiac, respiratory or general medical distress needing immediate help prior to emergency medical care arrival; and (3) Those requiring immediate protection and escape from exposure situations or oxygen-deficient situations in industrial, mining, military, or other “Immediately Dangerous to Life or Health” (IDLH) environments.
