OxySure® names Kenneth G. Hawari to Board of Directors

FRISCO, Texas – May 16, 2008 --- OxySure® Systems, Inc., a manufacturer and distributor of specialty respiratory products, announced today the addition of Mr. Kenneth G. Hawari to its Board of Directors.

Mr. Hawari has served as an executive officer, general counsel or outside legal counsel for public and private companies in the medical device, information technology, professional services and manufacturing sectors for almost 25 years. Mr. Hawari served as an executive officer and general counsel for Advanced Neuromodulation Systems, Inc., a publicly held company engaged in the research, development, manufacture and sale of implantable neurostimulation devices, which was sold to St. Jude Medical for \$1.2 billion in 2005. Previously, as a partner in the law firm of Hughes & Luce LLC (now K&L Gates LLC), Mr. Hawari counseled corporate executives and Boards of Directors on merger and acquisition, financing, corporate governance, SEC reporting, regulatory compliance, litigation management and other corporate matters. As a partner of Hughes & Luce, Mr. Hawari served on

the Executive and Management Committees, as Head of the Corporate Section and as Hiring Partner. In addition to serving on the OxySure® board, Mr. Hawari currently serves on the Board of Directors of the North Texas Enterprise Center for Medical Technology (NTEC) and the University of Texas at Austin Bio-Medical Engineering Department External Advisory Board. He holds B.A. and J.D. degrees from the University of Texas at Austin.

Said Julian Ross, Chairman and CEO, OxySure® Systems, Inc. "Mr. Hawari brings to the OxySure Board an extraordinary depth of experience and expertise in legal and corporate matters and in the medical device industry. We are pleased to have the opportunity to serve our shareholders alongside him."

Hawari expressed his enthusiasm at the opportunity. "Julian and his team have developed an innovative, safe and affordable product that has the potential to save many lives, and has already played an instrumental role in saving a child's life. As the company shifts from the development stage to the full-scale operating stage, and further develops and expands its inventive technology platform, I hope to be able to contribute to OxySure's future success."

This addition increases the number of OxySure® directors to four. In addition to Hawari, the members of OxySure's board include Chairman of the Board Julian Ross, who also serves as President & CEO of OxySure® Systems, Inc; Mark Wagar, President of Blue Cross/Blue Shield of New York; and Don Reed, President of Agave Resources, LLC.

About OxySure®

OxySure® Systems, Inc. is a Frisco, Texas-based medical technology company focused on the design, manufacture and distribution of specialty medical and respiratory products. The company has developed a third generation catalytic process and methodology to generate medically pure (USP) oxygen from

proprietary inert powders. The company owns numerous patents pending on this technology which makes the provision of medical oxygen safer, lighter and less expensive than traditional oxygen provision systems. OxySure's easy to use products improve access to emergency oxygen that affects the survival, recovery and safety of individuals in several multi-billion dollar markets involving both established and expansion customer markets: (1) Individuals at risk for cardiac, respiratory or general medical distress needing immediate help prior to emergency medical care arrival; and (2) those requiring immediate protection and escape from exposure situations or oxygen-deficient situations in industrial, mining, military, or other public settings. www.OxySure.com
