

OxySure (OXYS) Inks Distribution Agreement with Cardio Partner Resources

Frisco, Texas, January 29, 2015 – OxySure Systems, Inc. (OTCQB: OXYS) (“OxySure,” or the “Company”), a global leader and medical device innovator of life-saving, easy-to-use emergency oxygen solutions with its “oxygen from powder” technology today announced that the Company has signed a distribution agreement with Cardio Partner Resources of Elk Grove Village, Illinois.

“Cardio Partners gives us additional strength in our representation in the Midwest,” said Clark Hood, VP of Resuscitation Sales for OxySure. “They bring well over a decade of experience in the placement and management of thousands of AEDs throughout Chicago and across the United States. By adding OxySure to their product portfolio, they now can offer a unique and proprietary resuscitation product to their existing and new customers.”

Said Brian Leonard, President and CEO of Cardio Partner Resources: “We are excited about our distribution contract for the OxySure Model 615 portable emergency oxygen device. The Model 615 is FDA approved for OTC (over the counter) use and is a perfect companion product to new and existing AED programs. We can now offer a viable solution to our clients to make the administration of emergency oxygen simple and safe in the work environment.”

About OxySure Systems, Inc.

OxySure Systems, Inc. (OXYS) is a medical technology company that focuses on the design, manufacture and distribution of specialty respiratory and medical solutions. The company pioneered a safe and easy to use solution to produce medically pure (USP) oxygen from inert powders. The company owns numerous issued patents and patents pending on this technology which makes the provision of emergency oxygen safer, more accessible and easier to use than traditional oxygen provision systems. OxySure's products improve access to emergency oxygen that affects the survival, recovery and safety of individuals in several areas of need: (1) Public and private places and settings where medical emergencies can occur; (2) Individuals at risk for cardiac, respiratory or general medical distress needing immediate help prior to emergency medical care arrival; and (3) Those requiring immediate protection and escape from exposure situations or oxygen-deficient situations in industrial, mining, military, or other "Immediately Dangerous to Life or Health" (IDLH) environments. www.OxySure.com
