

## **OxySure (OXYS) Increases Sales Presence in Northern California through Distribution Agreement with Health Education Services**

Frisco, Texas, March 10, 2015 – OxySure Systems, Inc. (OTCQB: OXYS) (“OxySure,” or the “Company”), a global leader and medical device innovator of life-saving, easy-to-use emergency oxygen solutions with its “oxygen from powder” technology today announced that the Company has signed a distribution agreement with Health Education Services of Menlo Park, California.

Health Education Services (HES) specializes in turn-key implementation of automated external defibrillator (AED) programs and improving health, safety, and quality of life by providing classes, services, and consulting for the lay community and medical professionals. Located in Menlo Park, California, HES serves diverse markets, including Corporations, Health Care Professionals, Non-Profits, Government Agencies, the Recreational Industry, Religious Institutions, Public Utilities, Health Clubs, Child Care Providers and Educational Institutions. HES specializes in Philips AED Sales, Implementation, Compliance and Training, and has an installed base of many thousands of AEDs.

"We are excited to partner with OxySure Systems," said Julianne Brawner, Founder & Managing Partner of Health Education Services. "The OxySure Model 615 is a no brainer as a companion product for our current installed base of AEDs as well as future AED shipments. We currently offer Oxygen Administration Training as one of our many offerings and we believe the Model 615 is ideal for the lay person responder. We are excited to be able to offer this groundbreaking solution to our customers, which will make the administration of emergency oxygen simple, safe and more accessible in all our markets. Just like AEDs, OxySure's availability will improve medical outcomes by enabling lay rescuers to bridge the gap between the onset of a medical emergency and the time first responders arrive."

"We are pleased to add Health Education Services to our footprint in Northern California," said Clark Hood, VP of Resuscitation Sales for OxySure. "HES was founded in 1979 and adds a deep pool of experience and success in the design and implementation of AED programs and compliance. Julianne has been in the AED industry for over 18 years and we are excited to have her knowledge and passion on board as we combine forces to expand sales on the West Coast."

### **About OxySure Systems, Inc.**

OxySure Systems, Inc. (OXYS) is a medical technology company that focuses on the design, manufacture and distribution of specialty respiratory and medical solutions. The company pioneered a safe and easy to use solution to produce medically pure (USP) oxygen from inert powders. The company owns numerous issued patents and patents pending on this technology which makes the provision of emergency oxygen safer, more accessible and easier to use than traditional oxygen provision systems. OxySure's products improve access to emergency oxygen that affects the survival, recovery and safety of individuals in several areas of need: (1) Public

and private places and settings where medical emergencies can occur; (2) Individuals at risk for cardiac, respiratory or general medical distress needing immediate help prior to emergency medical care arrival; and (3) Those requiring immediate protection and escape from exposure situations or oxygen-deficient situations in industrial, mining, military, or other "Immediately Dangerous to Life or Health" (IDLH) environments.
