

OxySure (OXYS) Inks Distribution Agreement with Stop Heart Attack

Frisco, Texas, February 18, 2015 – OxySure Systems, Inc. (OTCQB: OXYS) (“OxySure,” or the “Company”), a global leader and medical device innovator of life-saving, easy-to-use emergency oxygen solutions with its “oxygen from powder” technology today announced that the Company has signed a distribution agreement with Stop Heart Attack of Birmingham, Alabama.

“Stop Heart Attack gives us strong representation in the Southeast”, said Clark Hood, VP of Resuscitation Sales for OxySure. “Floyd brings decades of experience in the field of defibrillation, as well as other emergency response products. His vast experience and strong contacts throughout the Southeast and across the U.S. will strengthen OxySure’s continued growth and expansion in the North America market. By adding the Model 615 portable oxygen device to their portfolio, they now can offer a unique and proprietary resuscitation product to their existing and new customers.”

“We are excited to sign this distribution contract with OxySure Systems, Inc.,” said Floyd Larkin, President/CEO and Founder of Stop Heart Attack. “The Model 615 device is FDA approved for OTC (over the counter) use and thus requires no prescription. This makes it ideal for the lay person responder and a perfect companion product to an AED program. We can now offer a viable solution to our customers, which will make the administration of emergency oxygen simple, safe and more accessible in the education and work environment.”

About OxySure Systems, Inc.

OxySure Systems, Inc. (OXYS) is a medical technology company that focuses on the design, manufacture and distribution of specialty respiratory and medical solutions. The company pioneered a safe and easy to use solution to produce medically pure (USP) oxygen from inert powders. The company owns numerous issued patents and patents pending on this technology which makes the provision of emergency oxygen safer, more accessible and easier to use than traditional oxygen provision systems. OxySure's products improve access to emergency oxygen that affects the survival, recovery and safety of individuals in several areas of need: (1) Public and private places and settings where medical emergencies can occur; (2) Individuals at risk for cardiac, respiratory or general medical distress needing immediate help prior to emergency medical care arrival; and (3) Those requiring immediate protection and escape from exposure situations or oxygen-deficient situations in industrial, mining, military, or other "Immediately Dangerous to Life or Health" (IDLH) environments. www.OxySure.com
