

OxySure (OXYS) Inks Distribution Agreement with Team Life, New Jersey

Frisco, Texas, April 8, 2015 – OxySure Systems, Inc. (OTCQB: OXYS) (“OxySure,” or the “Company”), a global leader and medical device innovator of life-saving, easy-to-use emergency oxygen solutions with its “oxygen from powder” technology today announced that the Company has signed a distribution agreement with Team Life of New Jersey.

“With three locations in Middlesex, Cherry Hill and Colts Neck, New Jersey Team Life will be a tremendous partner for us in the Northeast”, said Clark Hood, VP of Resuscitation Sales for OxySure.

“We are excited to add the OxySure Model 615 to our product mix”, said Jim Schatzle, Founder & President of Team Life. There are untold instances where emergency oxygen is needed in the school and workplace environment. The Model 615 is simple to operate and FDA approved for over the counter use so no prescription is required. The flow rate of 6 LPM for 15-20 minutes makes it ideal for ‘bridging the gap’ from the onset of a medical emergency to the arrival of first responders.”

Added Clark Hood further: “Team Life has a large AED installed base and is a great compliment to our growth strategy in North America. Jim’s business experience and passion for saving lives is well known throughout New Jersey and we believe the Model 615 will be a perfect companion product to offer Team Life’s customers.”

About OxySure Systems, Inc.

OxySure Systems, Inc. (OXYS) is a medical technology company that focuses on the design, manufacture and distribution of specialty respiratory and medical solutions. The company pioneered a safe and easy to use solution to produce medically pure (USP) oxygen from inert powders. The company owns numerous issued patents and patents pending on this technology which makes the provision of emergency oxygen safer, more accessible and easier to use than traditional oxygen provision systems. OxySure's products improve access to emergency oxygen that affects the survival, recovery and safety of individuals in several areas of need: (1) Public and private places and settings where medical emergencies can occur; (2) Individuals at risk for cardiac, respiratory or general medical distress needing immediate help prior to emergency medical care arrival; and (3) Those requiring immediate protection and escape from exposure situations or oxygen-deficient situations in industrial, mining, military, or other "Immediately Dangerous to Life or Health" (IDLH) environments. www.OxySure.com
