Vicki Jones, SVP, Mass Market Sales, Service, and Care for AT&T joins the Board of OxySure® Systems, Inc.

FRISCO, Texas – April 6, 2010 --- OxySure Systems, Inc., a manufacturer and pioneer of innovative emergency/short duration respiratory solutions, announced today the addition of Ms. Vicki Jones, SVP, Mass Market Sales, Service, and Care for AT&T to its Board of Directors.

As a senior executive of AT&T, Ms. Jones leads an organization of approx. 28,000 employees within AT&T. She has more than twenty-nine years experience in P&L management, sales and sales management, marketing, installation, and customer service. Said Julian Ross, CEO of OxySure Systems, Inc.: "Vicki brings a vast reservoir of expertise and experience in product management, product development, process re-design, strategy and business development, channel management, and international business experience to OxySure. As we enter a growth mode in our business, we are delighted to know that we have Vicki on our team to help us establish OxySure as the undisputed leader in emergency/short duration oxygen solutions."

"Julian and his team have developed an innovative, safe and affordable product that has already saved many lives, and is a game changer in the context of emergency preparedness and health safety. The product has positively impacted the lives of many school children and adults alike, and I believe many more will be positively impacted as the product continues to transform emergency preparedness as we know it. I am pleased to have an opportunity to contribute to OxySure's future success as it significantly expands the availability and use of this life-saving product."

The OxySure® Model 615 is a safe, easy-to-use portable oxygen system that uses two dry, inert powders to generate medical oxygen quickly and safely. Model 615 can and has been placed in public places, schools, businesses, churches, government buildings as well as in the home to allow a layperson or bystander to provide oxygen in medical emergencies during those first, critical minutes while waiting for professional medical assistance. OxySure's Model 615 was approved by the FDA for Over-The-Counter (OTC) sale and therefore does not require a prescription. Since April 2008, there have been hundreds of emergencies in schools and school districts, in restaurants, and in commercial and home settings in which OxySure has been successfully used.

About OxySure® Systems, Inc.

OxySure® Systems, Inc. is a Frisco, Texas-based medical technology company that focuses on the design, manufacture and distribution of specialty medical and respiratory solutions. The company pioneered a safe and easy to use solution to produce medically pure (USP) oxygen from inert powders. The company owns numerous patents and patents pending on this technology which makes the provision of medical oxygen safer, more accessible and easier to use than traditional oxygen provision systems. OxySure's products improve access to emergency oxygen that affects the survival, recovery and safety of individuals in several large markets involving both established and expansion customer opportunities: (1) Individuals at risk for cardiac, respiratory or general medical distress needing immediate help prior to emergency medical care arrival; and (2) those requiring immediate protection and escape from exposure situations or oxygen-deficient situations in industrial, mining, military, or other public settings. www.OxySure.com
