

OxySure Systems Signs New Distributor

FRISCO, Texas, June 18, 2013, 2013 (GLOBE NEWSWIRE) -- OxySure(R) Systems, Inc. (OXYS: OTCQB) ("OxySure," or the "Company"), a medical device innovator of life-saving, easy-to-use emergency oxygen solutions with its "oxygen from powder" technology, today announced that it has signed a non-exclusive distributor agreement with Aventric Technologies ("Aventric") to sell OxySure's full portfolio of products.

"We are pleased to add Aventric Technologies to our growing list of distribution partners," stated Mr. Julian Ross, CEO of OxySure. "Aventric Technologies has a strong presence in the state of Michigan and particularly in the K-12 education market, an area we see tremendous opportunities for growth. Aventric has already placed its first order and its sales force will be able to start selling our compelling and easy to use products immediately."

Based in Madison Heights, Michigan, Aventric Technologies sells a variety of branded AEDs through its HeartAED division to schools, businesses and places of worship. Aventric also sells imaging and medical equipment to hospitals, clinics and other alternate point-of-care (POC) facilities. Aventric sells its products primarily through a direct sales force and is a pioneering distributor of AEDs, and started selling AEDs more than twelve years ago.

About OxySure Systems, Inc.

OxySure Systems, Inc. (OXYS) is a medical technology company that focuses on the design, manufacture and distribution of specialty respiratory and medical solutions. The company pioneered a safe and easy to use solution to produce medically pure (USP) oxygen from inert powders. The company owns numerous issued patents and patents pending on this technology which makes the provision of emergency oxygen safer, more accessible and easier to use than traditional oxygen provision systems. OxySure's products improve access to emergency oxygen that affects the survival, recovery and safety of individuals in several areas of need: (1) Public and private places and settings where medical emergencies can occur; (2) Individuals at risk for cardiac, respiratory or general medical distress needing immediate help prior to emergency medical care arrival; and (3) Those requiring immediate protection and escape from exposure situations or oxygen-deficient situations in industrial, mining, military, or other "Immediately Dangerous to Life or Health" (IDLH) environments. www.OxySure.com

Forward-Looking Statements

This release contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Statements contained in this release that are not historical facts, including, without limitation, statements that relate to the Company's expectations with regard to the future impact on the Company's results from new products in development, may be deemed to be forward-looking statements. Words such as "expects", "intends", "plans", "may", "could", "should", "anticipates", "likely", "believes" and words of similar import also identify forward-looking statements. These statements are subject to risks and uncertainties. Forward-looking statements are based on current facts and analyses and other information that are based on forecasts of future results, estimates of amounts not yet determined and assumptions of management. Readers are urged not to place undue reliance on the forward-looking statements, which speak only as of the date of this release. Except as

may be required under applicable law, we assume no obligation to update any forward-looking statements in order to reflect any event or circumstance that may arise after the date of this release. Additional information on risks and other factors that may affect the business and financial results of OxySure Systems, Inc. can be found in the filings of OxySure Systems, Inc. with the U.S. Securities and Exchange Commission.
