

OxySure Systems (OXYS) Adds Chile To Fast Growing Global Distribution Footprint

FRISCO, Texas, December 11, 2013, 2013 (MarketWired) -- OxySure(R) Systems, Inc. (OXYS: OTCQB) ("OxySure," or the "Company"), a medical device innovator of life-saving, easy-to-use emergency oxygen solutions with its "oxygen from powder" technology, today announced that it has signed a distribution agreement with Tecnología Contra Incendios Python E.I.R.L. ("Python") to represent OxySure in the country of Chile in South America. This is the first distribution agreement announced by OxySure post-Medica 2013, the international medical tradeshow where the Company exhibited in Dusseldorf, Germany during November 2013.

Based in Santiago, the capital of Chile, Python sells safety equipment and supplies to mining and manufacturing companies, service organizations, government departments, some health centers and fire and traffic departments. Python's products include first aid, rescue and emergency products, safety cans and cabinets, fire fighting products, spill containment products, and traffic managements products. The distribution agreement is non-exclusive and contains minimum annual order quantity provisions.

"We are pleased to add Python to our to our fast growing list of international distribution partners," stated Mr. Julian Ross, CEO of OxySure. "Chile is considered one of South America's most stable and prosperous nations, with a population of approximately 17.4 million people. Python has a good understanding of the first aid and safety market segments in Chile."

About OxySure Systems, Inc.

OxySure Systems, Inc. (OXYS) is a medical technology company that focuses on the design, manufacture and distribution of specialty respiratory and medical solutions. The company pioneered a safe and easy to use solution to produce medically pure (USP) oxygen from inert powders. The company owns numerous issued patents and patents pending on this technology which makes the provision of emergency oxygen safer, more accessible and easier to use than traditional oxygen provision systems. OxySure's products improve access to emergency oxygen that affects the survival, recovery and safety of individuals in several areas of need: (1) Public and private places and settings where medical emergencies can occur; (2) Individuals at risk for cardiac, respiratory or general medical distress needing immediate help prior to emergency medical care arrival; and (3) Those requiring immediate protection and escape from exposure situations or oxygen-deficient situations in industrial, mining, military, or other "Immediately Dangerous to Life or Health" (IDLH) environments. www.OxySure.com

Forward-Looking Statements

This release contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Statements contained in this release that are not historical facts, including, without limitation, statements that relate to the Company's expectations with regard to the future impact on the

Company's results from new products in development, may be deemed to be forward-looking statements. Words such as "expects", "intends", "plans", "may", "could", "should", "anticipates", "likely", "believes" and words of similar import also identify forward-looking statements. These statements are subject to risks and uncertainties. Forward-looking statements are based on current facts and analyses and other information that are based on forecasts of future results, estimates of amounts not yet determined and assumptions of management. Readers are urged not to place undue reliance on the forward-looking statements, which speak only as of the date of this release. Except as may be required under applicable law, we assume no obligation to update any forward-looking statements in order to reflect any event or circumstance that may arise after the date of this release. Additional information on risks and other factors that may affect the business and financial results of OxySure Systems, Inc. can be found in the filings of OxySure Systems, Inc. with the U.S. Securities and Exchange Commission.
